EVERY CITY NEEDS A KINKAL

ON FROM THE LONDON PUNKS!

UK NEWS

As is tradition, squatters, anarchists and communists alike all joined together on New Years Eve to show solidarity with all those unlucky enough to be locked up inside. This year got about 100 people who chanted, set off fireworks and graffiti up the prison. Get in touch with London ABC if you want to do more prisoner solidarity stuff TOP WORK

SYNDICAT BLAENBTI - Radical bar in Neukölln,
Berlin that continues to resist gentrification, went
on the attack in London and brought the fight to
the developers door.

KLANKA STILL RESISTING! - after 2 years of back
and forth the autonomous centre is currently resisting
evictions. Despite pepperspray-slinging bailiffs
occupying part of the property they've still managed to
hold a hip-hop gig inside, and there are currently people
occupying the roof. They've slept on that roof in freezing
temperatures for 6 nights so far! ALSO TOP WORK

BLANK BAY/ BLANK A proudly british security
firm hired by KBC bank evicted 3 elderly siblings
from their 3rd farm in roscommon ireland. Not
surprisingly people were pissed. A group of people
stormed the farm,
hospitalised a few security guards, burned their
vans and took back the house and land. All in time for
the family
to return home for xmas. TOP WORK!!

WE ARE QUEER - 5 friends have turned an
abandoned house in Kolkata into a unique
café for the LGBTQ community, artspace and
hub for transgender and sex worker
activism. Amra Odhuth (We Are Queer in Bengal)
is calling out for solidarity and support!

ADIOS ADAM - despite being granted protection
by the Useless Nothing, legendary social centre

for the families who have occupied the site in
Amsterdam for 2 decades.

GET YO ASS TO CHURCH - the Noah's Ark lot
and friends continue their merry warpath through
south London, now occupying a property of
notorious god-botherer and freaky priest Gilbert I ya.
Watch out for more parties and benefits upcoming
A-FKN-MEN!

ANCHORS AWAY - Squatted in 2016 for 8 months
and again in 2017 when it lasted over a year. The
Blue Anchor pub in Bromley-by-Bow was finally
reclaimed by the owners as they prepare the area
for mass redevelopment. The squatters moved on
after losing in court, leaving it generously open
for curious skippers and party people to use in their absence.

IT'S A MADHOUSE The Manchester
Kru have been busy over winter with a
number of squats in the city. Market street
squat was opened to protest the council's
lack of a winter homelessness plan and
demand an end to deaths on the streets by
rough sleeping. And in their 2nd illegal
eviction in a month,
things broke into the
madhouse squat, dragged
people from their beds,
punched and beat them.
When the cops turned up
they took they bailiffs
side despite them not
having a single piece of
paper between them.
And to top it off the pigs
threatened to arrest the
squatters & not allow them
to take their stuff. ACAB

LONG LIME TIDEMILL After a months-long
occupation, organising & tree house living, Tidemill
Garden was savagely evicted by bus-loads of be-liffs and
another 120 cops. A couple of squatters got in trees &
one brave, young squirrel held out for 7 hours before
being removed. But the struggle is not over...
Since eviction protests have continued. The council has
built a wall and paid security to surround the garden
24/7. A wall so great that even Donald Trump came to
visit.

But it's not that great, its fucken
shit. It's already been s waled a
few times, preventing the trees
being cut down. Council ors are
running scared, with th air cars
smashed and needing 8 or 9s to
escort them to meetings and
community. Some harde red
heros have set up camp outside
can if you're around the 1 est and
look out for more actions to save
tidemill save reginald.

at the Limehouse junction have been demolishe
after being squatted for a decade by different cr wws.

The site now awaits FKN LUXURY FLATS as the
area undergoes ongoing gentrification.

FUCK THE DFLA - Far right extremists: please put yours head back in your ass.
13 October 2018, the sun shines over London, but with all this heat the shit that sits around thinks
twice as more, as a matter of fact a lot of fascist scum flooded in the city center, DFLA. A "pnc test
against returning jihadists", and there it was. Freedom of Speech crying blood. Every single time
that one of them talks, it cries blood, it feels PAIN. However a counter-protest held by numerous
group of activist and no, or should we call them human beings with a conscious, manage to stop their
march, and fuck them off in the meantime. The enforcers of the law made themselves the critics of
the fight, being in the middle and taking pleasure in being rubbed between the two part, avoiding to
let escalate the protest into a riot.
The counter protest ended up in Waterloo bridge. we can just hope that the people who were
watching went home with a shadow doubt. The stink dissipated for most, but I can still smell it.

GOLDEN CROWBAR AWARD

We're sure he's going to hate this, but we're going to give our inaugural **GOLDEN CROWBAR** to long-suffering, long-suffering **MYK FROM THE ADVISORY SERVICE FOR SQUATTERS**. You may only know him from the emails returning back the defense papers for your squat, or perhaps you've met him of an afternoon in the office in Aldgate, but few realise that Myk only joined the Advisory Service to get an extra £10 a week on his dole money back when the Spice Girls were still top of the pops. **25 FUCKING YEARS LATER**, the Spice Girls have been and gone and back again, but Myk soldiers on. He must be personally responsible for defending the homes and rights of 1000s of you dirty squatters. Buy the man a pint next time you send in your court papers. **BIG UP MYK WE LOVE YA B4 BY!**
